

# DEATH FROM HEART ATTACKS WOULD BE DRASTICALLY REDUCED IF ALL MEN OVER 40 YEARS AND WOMEN OVER 50 YEARS HAVE A HEART SCAN

SAINT JAMES  
HOSPITAL

Especially recommended for persons who:

- Are Diabetic
- Have a Family History of Heart Disease
- Are Overweight
- Have High Cholesterol/High Blood Pressure
- Are Smokers
- Are Stressed

Cardiac CT for calcium scoring of heart arteries involves no fasting and no injections. It is a convenient tool that evaluates, in a few minutes, whether you may be at increased risk for a heart attack.

## A SIMPLE TEST THAT HELPS EARLY DIAGNOSIS TO PREVENT HEART ATTACKS

ONLY AVAILABLE AT SAINT JAMES HOSPITAL
